

VOLUME 27

Entered at the Post Office at Janesville, Wis., as second-class matter.

The only way the democratic party can be preserved is to pack it in ice after the fashion of Noah's ark.

Senator Dawes is to write the platform for the Massachusetts republicans. This is an unfortunate thing for Governor Butler.

Captain Rhodes, who has talked so much about swimming the Niagara whirlpool, is called a "sensational nuisance." He should then be encouraged to swim the whirlpool rapids.

The Philadelphia Times says: "No one ever heard of a Niagara backman trying to swim the whirlpool." No, but it is like swimming the whirlpool to come in contact with a Niagara backman.

Mr. Tilden has clouded the hopes of the democratic party. He will not be suppressed in '84, and consequently the leaders are attacking him all along the line. But a man that is bartered with a bar, has the advantage.

Ben Butterworth, of Cincinnati, thinks that Judge Foster will be elected by a majority ranging from 15,000 to 20,000. This will be a surprisingly great victory, but the republicans of Ohio are prepared to do surprisingly great things this fall.

The Baltimore Sun assumes to say, "a wiser counsel than Judge Black the democratic party never had." But the Sun should remember that it was Judge Black who was one of the men who led the democratic party into sympathizing with rebellion. Was it wise counsel that did that thing?

The political history of this country suffered a severe loss in the death of Judge Black. He was about to answer Jefferson Davis, and had he permitted him to write the article, it would have been one of the most important papers Judge Black ever wrote. He died just in time to save Davis from further humiliation.

One of the most deplorable facts disclosed by the investigation of the Massachusetts bureau of statistics is the general dependence of parents upon their children for support. The wages of the parents are so small that they are absolutely unable to provide property for their families. Brought into competition with children, they are forced to labor for small pay or not at all. In either event they become more or less a burden to their children.

A seventeen-year-old boy was arrested on charge of causing the recent collision on the Troy and Boston railway, in which six persons were killed. The young man pleaded not guilty which was perfectly fair, and it is hoped that he will be acquitted. It has been suggested, and the suggestion comes with a good deal of force, that if anyone is to be prosecuted for manslaughter it is the railroad officials who employed a boy to do a man's work, and compelled him to do more than a man's work for boy's pay. Only a short time ago a serious accident occurred in a railway tunnel in New York city, because a boy was expected to do a man's work. The position which he occupied, like that filled by the lad on the Troy and Boston road, was one requiring experience. But experience cannot be had for a song, and so boys destitute of that important qualification for responsible positions, are employed. They work for much smaller wages than a man can afford. Without that sense of responsibility which a man has, or without that self-possession to meet emergencies that characterizes age, or without that strength essential to the proper performance of duties, they fail, like the boys mentioned, to do the work allotted to them, and some frightful calamity follows.

#### THE CREAMERY FAILURE.

The failure of W. J. Davis, the proprietor of the five creameries located at Porter's station, near Beloit, at Darlington, Dayton, Evansville, and Hincley, has created a good deal of excitement in the localities where the claims against him are quite heavy. The Free Press says: "The capacity of the Beloit creamery was two tons of butter a day, and the amount churned daily will average during the season thus far 3,000 pounds. The claims on the Beloit creamery alone are about \$25,000, and all other institutions operated by Davis are likewise embarrassed, the liabilities will be less. Persons who have had experience in the business and know much of Davis' affairs say that his total liabilities will approximate \$100,000, while the assets are nominal or nothing. There is no doubt that he failed to make money, and has made quite a haul. He made some large cash sales and instead of paying his debts with it he put it in his pocket."

In connection with this matter the Evening Wisconsin asks a very timely and pertinent question: "What business had the farmers to trust this man? What assurance was ever given them that he was honest, or if honest, that he was responsible for the large debts he incurred? If farmers who lost money by his failure were asked these questions, the uniform reply would be, 'He was a smart fellow, and seemed all right; all my neighbors trusted him, and why therefore, should not I trust him?' Then moralizing on the subject the same paper says: 'This sort of reasoning too often is quite enough to induce a farmer to sell his products on credit. He is honest himself and expects to pay his debts and knows that he is responsible for the indebtedness he incurs. And he foolishly assumed that in all these respects all other men are like him. It

is notorious that the swindlers who move up and down the country, find it easier to entrap the farmers than any other class of victims upon whom they work."

#### WITH FURY SWEEP.

Rochester, Minnesota, Laid in Ruins by a Cyclone.

Appalling Loss of Life and Property—Crops Laid Waste.

Ruin, Desolation and Death on All Hands—A Train Blown From the Track and the Passengers Crushed and Mangled.

MINNEAPOLIS, Minn., Aug. 23.—In the evening at 11 o'clock Rochester was one of the most beautiful cities in the west. Ten minutes later its beauty had disappeared, and in parts of the city ruin and desolation reigned. A terrible cyclone visited the city, leaving death and destruction in its track. What was once a well-populated portion of the city was the scene of ruin. To describe it is impossible. It must be seen to be believed. The cyclone passed over the city at 11 o'clock, and the main course was through the lower part of the town. One great beauty of the city was its many trees that lined the streets. Of these hundreds were either torn down or broken off, and many streets were rendered impassable by their being filled with trunks or limbs. Some were stripped perfectly bare, and even the bark being torn off, and it will be years before Rochester will recover its loss. As soon as the cyclone had passed and the people in the more favored portion of the city began to learn of the damage, they went at once to lower town to render what assistance they could, many working all night.

A thousand people in this city are homeless and dependent upon the charity of others for shelter and the necessities of life. The resources and sympathies of the citizens are taxed to the very utmost, and help is badly needed from abroad.

An impromptu hospital has been made in Remond's hall. About forty persons are being cared for by a volunteer corps of nurses. The damage in the city cannot be less than \$500,000, and in the surrounding country an estimate is impossible. Fences are all gone, cattle injured and large stacks of grain and hay have totally disappeared, and crops of corn and potatoes are beaten flat. The terrible loss of casualties in this city comprises twenty-four persons killed and at least eighty wounded, of whom the names have not yet all been received. The dead are not all identified. The storm swept through Dodge and Olmsted counties, causing greater destruction than the cyclone of last month ago. The court house, high school building, Academy of Lourdes, elevators, depot, flouring mills, ten business blocks, besides a great many dwellings, are unroofed. The Methodist church is ruined, and the Congregational church injured. More than 500 dwellings are utterly destroyed. Losses in the country are very great. The condition of things in the northern part of the city defies description. A few splintered stumps and scattered boards remain to show where the Third ward was. The buildings in this part of the city were mostly one-story frame houses, many of them without cellars, and there was the greatest destruction of life. The mill and dwelling of L. Foxdore are a total loss, while the immense Zumbrota plant, built by John M. Cole, proprietor, is badly wrecked, huge pieces of the building being torn out and carried off. Mr. Cole, who was in the mill when the cyclone reached it, thinking his house a safer place, started for it, but had not gone twenty feet before he was caught up by the wind, carried a distance of eight or ten rods, and dashed to the earth in a mangled corpse. The residence south of the railroad to Zumbrota street, all suffered, losing roofs, windows and chimneys. The shaded residence streets are almost impassable from broken trees, pieces of roofs and debris of all sorts. Reports from outlying towns are coming in slowly, and show that the damage is not confined to this city. Pleasant Grove is reported annihilated, two persons being killed and ten wounded. The town of Secor, on the east side of the cyclone, southeast of here, and is said to be wiped out. The top story of the court-house is badly wrecked. The cupola was carried several rods, and the building left exposed to the weather. The tower of the school-house lies on the ground, and the roof is damaged. The roof of the Methodist church was blown away and the walls are half crumbled down. The steeple of the Congregational church was knocked off. A child's picture, just returned from the country, had taken refuge in a school, but all escaped badly scared. Had some of the children been at home they must almost certainly have been killed. The railway depot is unroofed and badly riddled. The roof of G. W. Vandusen & Co's elevator was carried away, and the warehouse adjoining, owned by H. J. Horton, elevator, lies across the railway track, and the warehouse and office of Whitton & Judge are a mass of ruins. The Rochester Harvesters works are completely pulverized, not two feet of the wall remaining standing. All of the machinery is a total loss. The railway bridge is gone. Supt. Sanborn is here with a force of men, and railway communication will soon be secured. Wherever it was possible people took to their cellars, and in no case where that was done was life lost. In the upper part of the city the darkness was at no time great, but at the lower part of town it grew dark as night approached, filling every eye with terror.

The principal losses in the city, as nearly as have been estimated, are as follows: Court house unroofed and dome gone, \$2,000; high school building, tower and part of roof gone, \$2,000; Methodist church, roof gone, steeple hulled, inside wrecked, \$5,000; Congregational church, steeple off, \$1,000; railroad depot unroofed, round-house gone, bridge ruined, and other losses, \$15,000; Vandusen & Co., elevator, \$10,000; H. T. Porten, elevator, \$7,000; Harvester works and machinery, \$12,000; J. M. Cole's mill, side and roof off, mill wrecked, and engine blown into the river, \$3,000; Crescent creamery, \$1,000; Cascade mill, \$2,000; George Stockburg, store and stock, \$5,000; William Beardsley, building, \$1,000; A. D. Vedder, machine depot, \$2,000; ten business blocks unroofed, \$5,000; 350 houses, with contents, \$135,000; 200 houses damaged, \$50,000; the total loss is \$294,000.

#### THE DEAD AND WOUNDED.

Following is a list of the killed and wounded at Rochester as far as can be learned at this hour: John M. Cole, Mrs. Zierath, August Zierath, a hotel keeper, son of the above; Miss Zierath, his sister; Mr. Vanscooter, teamster; Mr. Osborne and infant child, Malinda McCormick, Mrs. Steele, an old lady, daughter of Lewis Manly; Mrs. Weatherbee, Jacob Heisel, a farmer; a child of George Hansen, Miss Schulte, a child of George Hansen, Miss Schulte, probably dead; Mrs. Fred Gough, Mrs. McQuillan, daughter of Lewis Irving. The following is a list of the injured as far as known, but is necessarily very incomplete: John Peterson, Hahn Hongard, wife and child; George Hansen, W. Welch, shoulder sprained; Charles Quick and four children, Dan Ryan, Mr. Weatherbee, young, Mrs.

Osborne and little girl, Mrs. Haggerty, head hurt; Dr. R. Eaton, head badly cut and bruised; Russ Matson, Fred Gough, Charles Gough, a nephew of John Pess, leg, arm and nose broken; Dan Roth, Mrs. Roth, Mrs. J. Bradley, Mrs. Humphreys, Marshall Humphreys, person; Mrs. Chapman, an old lady; Ed Chapman, her son; Mrs. Chapman, his wife; Mrs. Carter, a widow; John M. Quillan, Dan O'Brien, Mr. Gerdy, Mrs. Gerdy, Mr. McCormick, Frank Schultz, Mrs. Smith; infant child of Fred Rich, William Hansen, E. K. Williams, Frances Spitz, Anna Tawata, Otto Raa, John Howe, John Silenbeck, Milo Sweeney, Oscar Hawkins, William Leach, S. A. Welch, Mrs. Erwin and three children, Nelson Hanson, wife, and children.

Three children, whose names can not be learned, are so badly bruised that their mothers can not identify them. Reports from Dodge county are said to be appalling.

#### ANOTHER HORROR.

OWATONNA, Minn., Aug. 23.—Monger telegraphic advices were received here early in the morning that a terrible accident had occurred between Rochester and Zumbrota, Minn., on the Rochester & Northern division of the Chicago & Northwestern road, by which about one hundred people were killed and wounded. On account of the interruption of the telegraphic service at Rochester, no information could be obtained until the arrival of a train from the scene of the disaster with thirty-five people who had been wounded in the accident. Of this number many seemed to be seriously hurt, and all were taken to the hospital. The train that was wrecked was that which leaves Rochester about 4 p. m., arriving at Zumbrota about 6 p. m. It was caught in the severe wind and had some that were killed in the vicinity between 4 and 6 o'clock in the evening, and while running at a great speed was lifted from the rails and dashed to pieces. A gentleman who has been to the scene of the disaster describes it as one of the most horrifying characters. Every car in the train was almost literally shattered to pieces by the sudden stop caused by the train leaving the rails, together with the forces of the storm burying the unfortunate passengers beneath the debris, killing many and injuring nearly every person aboard the train. The gentleman stated that nine dead bodies had been taken from the ruins, and a large number of those seriously injured were taken to Rochester and Owatonna. At the time of the disaster, the train was carrying a large number of passengers, and the unfortunate victims were scattered all over the scene. It is believed that a number of killed would reach a score when the final summing up was made.

#### OTHER POINTS.

CHICAGO, Aug. 23.—Additional news from the section of country visited by the recent cyclone gives the following: At Kasson, Minn., Ole Andersen's wife was fatally injured, Christian Oleson and wife were killed and their child's leg broken; much damage to property; at Canby, Minn., south of Kasson, Mrs. Hombrecht is missing and news of ruin and death is coming in from all directions. Milwaukee, Wis., reports that the cyclone did great damage in the northern and central parts of the state; crops, fences and mill-dams were torn to pieces and cattle killed; one man reported hurt. Butler county, Ohio, was also visited by a storm which damaged property and partly wrecked Hamilton.

#### CLARA LOUISE KELLOGG.

What She Has Been Doing in Paris No Long.

New York, Aug. 23.—Miss Clara Louise Kellogg has been interviewed as to her recent visit to Europe and her plans for the future, and what she had been doing in Paris. She replied: "Well, I was studying music. Most people think it very queer when I say I've been studying after having gone so far in my career as I have; but I am one of those who believe in something to learn. So I've been studying under Sbriglia, a famous teacher. It's wonderful the success he has had. Why, Almee went to him after having heard so much about his ability, and said she had got an engagement to sing in an American next season and hadn't a note in her throat. He restored her voice in two months. Restoring voices is his specialty, and his voice will always be good as long as the body is in healthy condition. One of the great basses who is engaged in the Italian Opera company went to him a narrow-chested man with hardly any physique. Now he's a great, broad-chested fellow with a wonderful voice. Well, I've been studying with Sbriglia, and I know he has improved my voice."

"What plans have you for the future?" "At present, none. I can say this, however, that I don't intend to sing next winter."

#### UNDERGROUND TELEGRAPHS.

Organization at Albany of the Electrical Conduit Construction Company.

ALBANY, N. Y., Aug. 23.—Articles of incorporation have been filed with the secretary of state by the Electrical Conduit Construction company, with a capital stock of \$1,000,000, divided into 100,000 shares. The incorporators are H. W. Pope, vice-president of the Manhattan District Telegraph company, of New York; A. C. Chandler, of the Fuller Electrical company, of New York; H. W. Fairbanks, superintendent of the Postal Telegraph company; C. A. Brown, manager of the Western Electric company; S. P. Kneeland, of New York; Professor Elisha Gray, and D. N. Hurlbut, of Chicago. The object of the company is the construction of underground telegraphs and cables, under patent, and the use of the same for the conveyance of messages by the most efficient and practical telegraphs, can be done with greater economy than by any device yet known. The invention is of D. N. Hurlbut's, a well-known telegrapher of Chicago.

#### VANDERBILT'S CHARITIES.

The Railroad King Reported to Have Given Away \$3,000,000.

SARATOGA, Aug. 23.—It appears that he is more virtuous in Vanderbilt than he has generally been credited with. Mr. Lee, one of the editors of The Sun, has been investigating the matter and has discovered that during the past few years he has disbursed \$3,000,000 in private charities. This money has been distributed unostentatiously. None but his most intimate friends have known of the transactions, and there are figures to prove that the money has gone to the charities to which it was directed.

#### Threw Away His Crutches.

"Suffered from rheumatism so badly had to use crutches, but threw them away

after applying Thomas' Electric Oil to my limbs. I now feel better than I have for years." P. L. Gibbs, 330 12th street, Buffalo, N. Y. Sold by Palmer & Stevens and Abner & Co.

#### JUDGE BLACK ON POLITICS.

Views Given to an Interviewer a Few Days Before His Death.

New York, Aug. 23.—A short time before his death, Judge Black was questioned in regard to his opinion of the outlook for 1884. He said he hoped the old ticket would not be nominated unless it were reversed, Hendricks and Tilden. He believed that Tilden might fill the office of vice president creditably, and Hendricks would make an admirable president; but his choice was Hancock; he was for Hancock inside and out, right and left, and under all circumstances. "If nominated again, would Hancock be better than in 1880 was asked, and the reply was: "He would have to run better to be elected." In alluding to the campaign of 1880, Judge Black was very severe on the newspaper correspondent who gave publicity to a statement respecting the tariff alleged to have been made by Hancock, but which the judge characterized as a lie out from the whole cloth. He was even more pungent in his remarks respecting Senator Randolph, of New Jersey, an advising Gen. Hancock to make a written statement concerning that alleged interview on the tariff. "Randolph is a high tariff man, and that ought to have disqualified him from giving advice to a Democratic candidate for president," said the judge, taking another chew of "fine cut," made from the choicest of Lancaster county tobacco, and adding the sentence: "No man can be a Democrat who believes in a tariff for protection, and he has no right to advise a Democratic candidate for president."

"Will the Republicans nominate Gen. Arthur?"

The judge hesitated a full minute, then replied with an emphatic "No. If Arthur should be nominated, he would not stand the remotest chance of an election."

Continuing his conversation, Judge Black said he considered Blaine the strongest man on the Republican side, and if he were a candidate, and his friends concluded to support him for the nomination, he would sweep them all down—Arthur, Sherman, Edmunds, Logan, and the rest—like chaff before a cyclone. Judge Black did not consider Blaine a great statesman—as to man could be said to possess the highest qualities of a statesman, but in relation to the rights of the states and the constitution—but Blaine is by all odds the best politician in either party at the present time. He was the only man Judge Black could call to mind who had anything like a following. Said he: "Blaine has a distinctly aggressive and a decidedly able following in almost every state, but he is not a candidate. He has assured me of this himself, and in such a way that I cannot doubt the sincerity of his statement."

#### WEDDING CHINAMEN.

A New Race Question in the South—An Sin's Sundry Courtship.

ATLANTA, Ga., Aug. 23.—The Chinese question has been again precipitated by the marriage of one of Willie Loo Chong's friends to one of the fairest flowers of Georgia. The wedding, however, was of the Chinese variety. Willie Loo Chong, and the outcome of the Waynesboro disturbances, several legislators, chief of whom was Mr. Jordan, of Hancock, determined to break up the mixture of races by making such marriages unlawful. A bill on the subject has already undergone its preliminary readings, and will in a few days be called for final action. This made a slight commotion in the Chinese colony in Augusta, who found that immediate action was necessary. A well known magistrate was called upon to perform a marriage ceremony, and upon arriving at the location found Jim Chong, a Chinaman, and Miss Mary E. Jones, a well developed, shapely-looking woman, surrounded by many of the friends of Mr. and Mrs. Loo Chong and others. After the nuptial knot was tied congratulations were given, and the bride received handsome presents, among them a \$50 Chinese fan. A big dinner was spread. The couple runs a grocery store, does a good business and is making money. The courting was all done in two weeks. Mr. Jordan now expresses the determination to call up his bill and push it vigorously through, so that yellow heathens secure white-faced wives.

#### "BITTERS."

Decision of the Internal Revenue Commissioner—A Sample Analyzed.

WASHINGTON, Aug. 23.—In compliance with the request made by the proprietors of one of the popular patent medicines, which are widely sold throughout this country under the general name of "Bitters," the commissioner of internal revenue rendered a decision in regard to the liability of such quasi-medicinal preparations to a special tax as beverage. He holds that where bitters are sold in good faith as medicine, no special tax since July 1 will be required. An analysis of a popular specimen of bitters on which this decision was rendered, showed the following result: Absolute alcohol, 32 percent; water, 64 percent; essential oils and flavoring extracts, 4 percent. Upon this analysis it was estimated that the sample contained 29 percent of ordinary whiskey.

#### Sickness in Mexico.

WASHINGTON, Aug. 23.—The surgeon general of the marine hospital service has received a report from Surgeon Mata, of Brownsville, Tex., from which it appears that black small-pox is prevailing with great mortality in the towns of Matamoros and Brownsville, Mexico; that yellow fever is reported at Tampico and Panama; black small-pox is prevalent in Guatemala, the victims being principally foreigners; there were 160 deaths from cholera in San Dionisio, Oaxaca, during the month, and 477 deaths from yellow fever in Vera Cruz during the same month. Early in August there was an earthquake at Patlatlan, causing twenty deaths and the destruction of thirty houses.

#### Of Interest to Grain Shippers.

TOPEKA, Kan., Aug. 23.—The state railroad commissioners have decided adversely a question asked by the Union Pacific—namely, whether, when sufficient capacity exists to handle all grain through elevator, the company might prohibit track-loading from wagons or other means than elevator. The board held that when in a busy season cars are delayed an unreasonable time demurrage might be collected from shippers.

#### The Women in the Strife.

New York, Aug. 23.—Master Workman Mitchell says there are at least fifty women who are left without work by the failure of the strike, and who will have to be cared for until they find employment. He says that the women who have been refused admission to the work are as a rule those who are most in need of work, and that subscriptions for their benefit are being received. The trade unions will contribute something.

We believe that there is a large class of

patent medicines whose ingredients are

scientifically and judiciously selected

and compounded, and that they have

been very useful in the domestic treat-

ment of disease. We must come to this

conclusion, precisely the same way

that we come to the conclusion that a

man is a skillful physician—by what they

accomplish, and by the testimony of

those who have used them. The reputa-

tion of a patent medicine is sustained by

exactly the same evidence that supports

a skillful physician's reputation.

Many of these medicines came out of the

regular practice, and were prepared and

originally prescribed by the best physi-

cians. \* \* \* Very few of them, we believe

are humbugged made in the conscious-

ness or the intent of their makers.

The people who are unnecessarily the

judges both of doctors and of medicines

say that these medicines are not all

frauds, and if human testimony is good

for anything, this fact is established.

peared among the cattle in the county of

Lincoln, England, and is said to be spread-

ing.

Forest fires would have destroyed the

village of Asand, Wis., for a shower at

night, hundreds of men fought the flames

all day.

A train on the Memphis & Little

Rock road broke through a trestle near

Forest City, Ark., by which three persons

were killed and fifteen injured.

W. J. Davis, who ran five creameries

in the vicinity of Beloit, Wis., and one at

Hinckley, Ill., has disappeared, leaving debts

to the amount of over \$80,000.

Citizens of Creston and Winterset,

Iowa, are actively at work to secure the

building of a railway to connect the south-

western portion of the state with the capital.

Senator Bowen, of Colorado, sold to

a New York man named M. W. Cooper,

151,000 shares in the San Juan consolidated

mine, near Del Norte, for nearly \$1,000,000.

C. Strong, formerly clerk of Butler

county, Kansas, who forged warrants and

fled with a young woman, leaving a wife and

two children almost penniless, lies in jail at

St. Paul for lack of \$4,000 bail.

Near Athens, Alabama, Mrs. Fowler,

her daughter, and a babe took shelter under

a tree in a storm. Lightning killed the

mother and elder child, but the babe was

found clinging to the arms of its lifeless

parent.

On the fertile prairies of Nebraska

the sound of the reaper has drowned all

other sounds during the month of August.

Never was such a crop harvested in that

quarter. New cuts are in the market at 15

cents per bushel.

A fire at Long Island City destroyed

the Empire oil works and a large amount of

petroleum, causing a loss of \$500,000, and in-

jury to three workmen. The large paper

mill of J. H. Lewis, near Chester, Pa.,

valued at \$80,000, was burned.

A close inspection of houses at Pen-

sacola developed two cases of yellow fever in

a sailors' boarding-house on the wharf at

Palafra street. The surgeon general or-

dered the removal of the boat to Santa Rosa is-

The Grand Encampment at San

Francisco. Notes of the

Proceedings.

SAN FRANCISCO, Aug. 23.—The grand en-

campment continues in executive session, and

decided to adopt the ritual of Malta, with

slight alterations. The coming drill on

Saturday continues the prevalent subject

of discussion, and it is eagerly looked

forward to. No communique has been

received from the committee on the

subject of the drill. The drill committee have

not yet apprised the competitors of the evolutions

to be performed, and they will not do

until an hour previous to the competition.

It is understood, however, that fancy drill

will be excluded from the programme. While

the drill committee express satisfaction at

this arrangement, St. Bernard has protested

against the change, and in accordance to the

unanimous decision of the committee, the

drill committee have decided to accept the

proposal. The action of the committee was

unanimous, and it called forth great

indignation from the press. The action of the

committee was unprecedented, and it called forth

great indignation from the press. The action of the

committee was unprecedented, and it called forth

The new celebrated "Foxhall" cigar, a brand of our own, and the best nickle cigar in the city, at Croft & Whiton's.

For a full line of parlor suits, easy chairs, etc., at lowest figures, call at W. H. Ascherbach's 22 West Milwaukee street.

The "wackos" cigars have won for themselves a state reputation, and are unequalled for quality. Ask for them.

Get rid of your corns and warts by using one of Stearns & Baker's corn pencils.

Real estate at bottom prices at office J. G. Saxe.

Briefs.

—Band concert on the corn exchange this evening.

—Marshal Hogan captured two disorderly drunks last evening.

—Oh, singular double discussion, doubly singular because of its double-

—The preparations for the firemen's tournament will make exciting times for the boys for the next six weeks.

—The Bower City band will render some choice music at the open air concert on the Corn Exchange square this evening.

—Mr. Julius Hammerschlag to-day shipped to parties in Omaha, forty-two cases of tobacco, and has more of the same kind on hand.

—Three drunks were disposed of in the municipal court this afternoon—two received permission to remain in jail until to-morrow, the third five days.

—The next regular meeting of the Southern Wisconsin medical association will be held at Evansville, Tuesday, September 11, 1883, commencing at 10 o'clock a. m. sharp.

—Mr. William Riley, of Johnstown, has just delivered another wolf scalp to the county clerk, making three within a few weeks, which he has caught in an ordinary steel rat-trap, bounty \$15 each scalp.

—The store in the Williams block on West Milwaukee street, formerly occupied by Stennett & Finley has been thoroughly renovated and repaired, and on the first of September will be occupied by the Moses Brothers, picture frame dealers, etc.

—The A. D. Hamilton Post G. A. R., of Milton, held a picnic at Clear Lake yesterday, at which Major S. C. Cobb and family, W. W. Willis and family, and W. B. Weaver and family, of this city, attended, and report having been well entertained by the Milton people.

—While a number of our sporting men have been out hunting prairie chickens, we have not been informed of any succeeding in bringing in a great number of birds. The other day a couple of hunters went out in the country about fifteen miles, and after working all day, only captured one chicken and a plover.

—We notice that Mr. James Sutherland & Sons are receiving an excellent stock of new books and pictures. In getting fresh books thus early in the season they simply respond to the demands of their customers. At any time of the year they have one of the best appointed bookstores in the state.

—Mr. Elijah Wixom, of Fulton, sold Mr. J. R. Brown, of Edgerton, twenty head of hogs, delivered on the 15th inst, weighing 7,000 pounds. The hogs were contracted last April at \$7.25 per hundred, and although no money was paid at that time, Mr. Brown took the porkers at the price agreed upon, which was a considerable loss for him.

—According to a head-bill issued by the McHenry Co. (Ill.) agricultural society, ten military companies have entered to drill for the prize offered at the fair to be held in Woodstock, on September 13. Four of the ten companies belong to Wisconsin—Janesville Ganniss, Beloit Guards, Delavan Guards, and the Custer Rifles, of Whitewater.

—Mr. E. H. Bennett has completed the repairs on his two stores on West Milwaukee street. Mr. Wm. Homing, the ale brewer, has again taken possession of the one he formerly occupied, and is opening up in first class style. The other store has not yet been rented. The improvements made by Mr. Bennett in this property will be appreciated by all.

—In addition to those mentioned in last evening's Gazette as being at Clear Lake yesterday, picnicking, were Mr. J. A. Denniston and family, Mr. L. S. Smith and wife, Mr. E. T. Dooto and wife, Mr. N. O. Clark and wife, and Prof. R. W. Burton and family, making a party of about thirty people, all enjoying a good time around that pleasant little lake.

—Mr. Gateley denies the report that his mules "became frightened yesterday morning by the breaking of the king bolt, and freeing the forward wheels from the remainder of the vehicle, the long-cared animals took a lively run up Linn street," and intimates that if the fellow who started the report had ears half as long as the mule, he might get the report more correct by stating that they did not run at all.

—The Galbraith brothers will start on Saturday for the Minneapolis fair with sixteen of their fine imported Clydesdale horses. After the Minneapolis fair next week, they will attend the Minnesota state fair at Owatonna, September 3-8, then back to Madison for the Wisconsin state fair. They also intend visiting the Chicago and St. Louis fairs this season. Their horses are as fine as any in this country, and they attend these fairs fully confident that their horses cannot be excelled.

—Remember the appearance of John Dillon on Friday evening at the opera house. "State's Attorney" is a funny piece, and as played by Mr. Dillon becomes a very amusing comedy. Besides suiting him to a tuxedo, it has the additional advantage of an unlagging interest in its plot. It has no debasing sensationalism, but a simple story, well constructed and ably rendered. The cast is excellent throughout, Miss Nellie Walters ably supporting the star. The moral of the play is good, and every one who shall witness it will receive wholesome advice, not to speak ill of any one. Give Mr. Dillon a good greeting.

—The body of Mr. George Butts' little son, an account of whose drowning was published in Saturday's Gazette, was found this morning floating in the river about a mile below the place where the little boy fell into the treacherous river. The body was immediately taken to the home of Mr. George Butts, at Milton Junction. We have not learned any further particulars.

OBITUARY.

—Death has cast its deep shadow over the home of Mr. and Mrs. C. H. Anderson. Their daughter Tessa, who had been struggling against that stubborn and treacherous disease—consumption—for nearly three months, was taken from them at ten minutes to eight o'clock last night. There was encouraging hope in the early stages of the disease that she would regain her health, but as time went by her condition grew less promising, the disease more irritating and irresistible, and at last life gave way and death claimed its victim. There was something peculiarly sad in Tessa's last moments. She had suffered very much, but endured her hard lot with touching patience, and not without hope, and when the end had come she passed from life to death with a calmness that showed an unmovable faith in the peace of the future.

We watched her breathing thro' the day. Her breathing soft and low. As in her breast the way of life Kept heaving to and fro.

But when the eve came dim and sad And chill with early showers Her quiet eyelids closed—she had Another ere than ours.

She was seventeen years old, and had spent all her life in this city. Her death at her entrance into promising young womanhood, will cause deep regret among a very large circle of young friends; and the father and mother and brothers and sister have the profound sympathy of the community.

The funeral service will be held at the home of the deceased, on North Main street, at four o'clock on Friday afternoon. The Rev. Mr. Curtis will officiate. The remains will be taken to Oak Hill for interment.

A large proportion of the Baking Powder sold is carefully adulterated. A strictly pure Baking Powder is made of two articles only, viz: Bicarbonate of Soda and Grape Cream Tartrate. No other ingredients can be found in DeLand's Chemical Baking Powder.

Concrete Sidewalks. A number of citizens have put down concrete sidewalks this season in front of their residence property. These walks appear to be a great improvement over the old style plank or brick walks, and it is claimed that in the end, the concrete is much cheaper than either the plank or brick walks. Many other parties who are compelled to renew their sidewalks are yet undecided which to adopt. In Beloit property owners have almost unanimously adopted the concrete, and many walks have been put down. The city, we understand, has put down several concrete sidewalks, which appear to stand the test as well, if not better than any heretofore put down of other materials. The Free Press publishes the following item, favoring the adoption of the concrete walk by the council: A large number of concrete sidewalks are going down in Beloit this season, and if they stand the test of time, and there is every indication that they will, within two or three years the sidewalks of this city will be in splendid condition. It is stated by those engaged in putting down the concrete, that the stench sometimes arising upon pulling up the rotten plank walks is almost overwhelming. This being the case, perhaps one, and by no means insignificant, cause of disease is thus forced so forcibly upon the attention of the health officer and the city authorities, that they may deem it expedient to recommend that hereafter no more plank walks shall be laid. Looking at the subject in a still broader view, do not all considerations seem to indicate to the conclusion that the city council could not do a more proper thing than to enact an ordinance prohibiting the relaying of plank sidewalks, and providing for a similarity of material and uniformity of size on particular streets. Taking for granted or proven the superior durability of concrete and the disease-breeding of rotten planks and decaying vegetable matter, and the other important fact that concrete walks are put down at a cost not exceeding ten cents per yard over the cost of the common two-inch plank walk, and it ought to be readily admitted that such an ordinance is almost a necessity on the score of health and economy alone, saying nothing of the vastly improved appearance of the streets of the city within a year or two after its passage.

Prof. Horsford's Baking Powder. SUPERIOR AND SCIENTIFIC. DR. CHARLES S. GANNETT, Professor of Chemistry in Philadelphia University says: "I regard it as a superior and highly scientific preparation."

The Weather. REPORTED BY PRENTICE & EVENSON, DRUGGISTS. At seven o'clock this morning the thermometer registered 51 degrees above zero. Clear with north wind. At one o'clock p. m. the register was 71 degrees above zero. Clear with northwest wind. For the corresponding hours one year ago the register was 71 and 84 degrees above zero.

WASHINGTON, August 23, 1 a. m.—The following are the indications for to-day: Upper Lake Region—Generally fair weather, winds mostly westerly, rising barometer, stationary or lower temperature.

TO THE CITIZENS OF JANESVILLE AND ELSEWHERE—Do not forget that the O. K. laundry has removed from the lower bridge to finer and larger quarters under the postoffice. The O. K. laundry has a reputation of doing the finest laundry work ever done in this city, for it is true that its competition is of the poorest kind, for it seems to be the case that the O. K. does work over that has been done by others before worn. Do not take your laundry work to the lower bridge and have the idea that it is now conducted by F. O. Parsons. Do not send your work out of the city when you can have it done quicker and just as fine. Give the boys a call.

N. H. Down's Vegetable Balsam. Elixir cures coughs, colds and consumption. Sold by Stearns & Baker.

Personal.

—Hon. Philip Norcross has gone to Denver, Colorado, to attend to some business matters.

—Mr. and Mrs. G. W. Hawes returned home last night from Old Orchard Beach, Maine, where they spent several weeks.

—Mrs. Peter Simmons, nee Miss Grace Wright, of Denver, Colorado, arrived in the city last evening, on a visit to her old home.

—Mrs. C. H. Conrad and her son William H., started to-day for Marquette, Michigan, where they will remain several weeks.

—Mr. H. B. Kenniston, one of the overseers at the prison in Waukegan, is in the city, visiting friends. Mr. Kenniston reports the Rock county delegation in that institution doing well.

—Mr. Ara Hardy, wife and grand-child, of Lima, are in the city, the guests of County Clerk Morgan. Mr. Hardy is one of the oldest settlers of Rock county, having settled in Lima in 1830.

—Miss Emma E. Baldwin, daughter of Mr. and Mrs. A. W. Baldwin, returned home last evening from Lake Geneva, where she has been camping for the past three weeks with Mr. W. H. Ascherbach's family.

—Surgeon General Henry Palmer, of the governor's staff, Colonel W. B. Britton, Adjutant M. A. Newman, and Judge Advocate J. W. Bates, of the first regiment W. N. G., will go to Sparta this evening, to attend the encampment of the third regiment. Adjutant Newman and Judge Advocate Bates will go from Sparta to Cedar Falls, Iowa, to attend the encampment of the Iowa brigade at that place next week.

—Dr. Thomas McKee has accepted the appointment as physician at the state prison in Waukegan, and has entered upon his duties at that institution. Dr. McKee is well-known in Janesville, is a son of Mr. Richard McKee, formerly a resident of the second ward. The doctor, although young in years, is very popular at the prison, and is in high favor with all parties. Of late years he has been engaged in practicing his profession, and in mining in the Superior country, and was very successful.

Speak Right To. "Have tried Thomas McKee's Oil for cramp and colds, and find it the best remedy I have ever used in my family." Wm. Lay, 510 Plymouth Ave., Buffalo, N. Y. Sold by Palmer & Stevens and Sherer & Co.

For sale by F. Sherer & Co.

Rescue Hook and Ladder Company. The members of Rescue hook and ladder company held a meeting at the council rooms last evening and resolved to organize a team, and enter for the series of tournaments to be held in Southern Wisconsin this fall, commencing with the tournament in Beloit on Friday, September 21st. The Rescue boys have participated in a good many contests in the west, and have always come out with the "broom." They have met the celebrated running team from Shannon, Illinois, in three contests, and have on each occasion been victorious. At each of these meetings the contest centered on the Janesville and Shannon companies, all other contestants being satisfied with the second and third place. The Janesville team will undoubtedly meet the Shannon team again in Beloit in September, and again contest for the first place, although according to all rules the Rescue company of this city are entitled to carry the championship broom for all time, having won first place in three consecutive trials. But the boys here seem anxious for the race, and will again meet the field. Their running team will be very near the same as in former contests. Mr. Thomas Mahon, who is now second assistant engineer of the fire department, has been elected captain of the running team, upon whom all depends for the complete organization. That he will succeed there can be no doubt, as he accepts his task with a will, and a determination to win. Mr. James Hays, the champion climber of the Northwest, who has always been connected with this team, will be with the boys on this occasion. The running team will hold another meeting on Friday evening at the west side house, when they will commence practice, which will be continued on each Monday, Wednesday and Friday evenings, and desire that all good runners in the city, who desire to take a hand in the races will be present on to-morrow evening.

THESE COMPANIES. The hose companies have not yet decided to take an active part in the tournament, but before the time comes, the "dark horse" may put in an appearance, and through the excitement on such occasions, prove to be the best in the field. We shall see hereafter.

Our readers will all the medicines advertised in this paper at Prentice & Evenson's drug store, opposite the postoffice. They keep all the principal patent medicines in the market, and undoubtedly have the largest stock in the city.

Enterprising local agents wanted in this town for an article that is sure to sell, fire extinguishers and grocers preferred. Address Hunston Food Preservative Co., 72 Kilby street Boston.

Shoppers.

—Mr. Wm. Marlock and wife, of Boston, Mass., made a short call on their uncle, Mr. Thos. Holmes, last Thursday. They are on their way to Colorado.

—Rev. J. Varty has returned to his post of duty again.

—Last Sunday one of those sad accidents happened which always startle a community. Mr. George Fern's son Thomas went to a small creek near by to bathe, and not being able to swim, got into a deep hole and was drowned. The funeral was held Monday afternoon, at the Congregational church, Rev. H. Hous-ton officiating.

—A large party of young people went to Cavers Rocks Tuesday, and had a pleasant time.

—Mrs. A. Bell has returned from a visit to Iowa.

—Mrs. Dockstader and her daughter Ida have gone to visit friends in Iowa.

—Grain that is being threshed does not yield as large as was expected, especially oats.

Lost. "All my dyspeptic troubles since I used N. K. Brown's Ess. Jamaica Ginger." "N. K."

Attractions at Milwaukee. Applications for space continue to pour in for the coming fall exhibition by the Milwaukee Industrial Exposition association, and the number of entries now made number about six hundred. A display beyond all precedent is guaranteed by the management and the attractions offered are of the best. The museum of which mention was made in a former issue, is in itself a wonder of wonders, and the opportunity presented for viewing one of the grandest exhibits in this line without extra charge should not be lost. The collection is the property of Prof. A. W. A. of Rochester, N. Y., and has only been accumulated after years of labor and study, and at a great expense the Milwaukee exposition pays all expense in bringing six car loads of these wonderful specimens, consisting of the skeleton of a whale forty feet long, Minerals, rocks and fossils, collection of mounted mammals; shells and corals, a series of mounted skeletons from animals to an elephant, and in fact all the perquisites of science, and to make up a first-class museum. This vast collection will occupy over ten thousand square feet of space and alone be worth a trip to Milwaukee. The general exhibition will far surpass anything yet presented and the building has been laid out in a most tasteful and attractive manner. The railroads offer their usual excursion rates whereby parties may visit the Metropolis of the state in the most beautiful scenery of the year, at a nominal cost. The hotel accommodations of the city are ample and there will be no increase of regular prices during the exposition. There will be no side shows this year, 25 cents admits you to all. Don't miss it.

—Mr. S. W. Blaker will have an auction sale of stock and farming tools on September 5th, at his farm five miles north of the city.

The nutritive properties of CODDEN'S Liquid Beer Tonic sustain the body without solid food. Children's no other.

DEED. BUTTS—At Fulton, Rock county, Wis., August 17th, 1883, WILLIAM DEVENSON, of Fulton, Wis., aged 7 years and 6 months.
